Vocational trade orientation in Northern Saxony - Information for parents

WHERE CAN I FIND INFORMATION?

Dear parents,

You are the most important contact and source of advice regarding the topic of vocational trade orientation for your child. You know the strengths and aptitudes and are looking out for the future of your child. Support your child in the search for a vocational training opportunity, academic studies, continuing education facilities, and bridge solutions after school. Take advantage of the resources provided by schools, the vocational trade advisors at the Agency for Work Oschatz, the vocational training advisors at the International Chambers of Trade and Commerce in Leipzig, and by the vocational training advisors for "Green Jobs" of the District Administrative Offices Northern Saxony.

This informational leaflet provides you with an overview of the contacts at the schools. We are also giving you information about selected events of the vocational trade orientation and informational platforms in County Northern Saxony.
